

Megan, Mother of two
Founder and CEO of Hot Mama
Treated for varicose veins

As a busy mom running a household and a business, I'm on my feet all day. When varicose vein pain interfered with the things I enjoy – like pushing my kids on the swings and finding the latest fashions for my Hot Mama stores – I knew I needed a cure. I visited a board-certified vascular surgeon at VeinSolutions for a vein stripping. After a simple procedure, I can do the things I love – pain free. And, I feel confident in shorts again. My doctor and the staff at VeinSolutions took exceptional care of me.
