

"It was absolutely the best thing I have ever done for myself. The veins in my legs were so horrible I never wanted to wear shorts or dresses...EVER! I was so embarrassed that it hurt my self esteem. That might sound severe, but true in my mind. I can't tell you how pleased I am with the results. I never imagined in my wildest dreams that my legs could ever look this good. I recently recommended Dr.Mesh to two of my closest friends, both of which knew the accomplishments he had made with my legs and were amazed with the results. I always felt like your most important patient when I was in your office."

"Dr.Annenberg is simply the best! He provided outstanding care from my very first visit (when I had multiple blood clots in my right leg) all the way through to my last follow-up visit. I had surgery on both legs, one year apart, and the outcome on both legs is fantastic. He listens carefully and looks you right in the eye, which many doctors don't. Additionally, his staff including the receptionist, his medical assistants, his sonographer and his customer service folks are wonderful. They make you feel at ease and are there to answer any questions at any time. I would not go to anyone else."

"I decided to check out VeinSolutions after talking to a former patient of theirs. She told me of her troubles and pain prior to her surgery and how wonderful she felt after. She was very excited about what VeinSolutions had done for her. I thought I would give it a try. From the first appointment, all the way through my procedure and beyond, I have found VeinSolutions and Dr. Zenni to be extremely professional and precise in their undertaking of my surgery. Before surgery my veins were protruding badly on my leg, always very hot to touch and painful. After the procedure I was so shocked to see that the ugly veins were gone. Within a very short time even the small incisions were fading. After a couple weeks, I was back to my normal self but with much more energy. I no longer had the aching pain in my legs to prevent me from activity. It is amazing how much more energy I have and the amount of sleep I now receive without having cramping legs all night. I love my new legs! The procedure has given me a lot more confidence in how I look and feel. I recommend it to anyone who is suffering from varicose veins. With VeinSolutions there is great hope in having a more enjoyable life. I would recommend them to anyone."
